

# Touchless Troubleshooting

**Don't Send a Technician to the Job Site  
Send this Plug & Play PQube3 Pass-Thru Instead**

With COVID-19 still on the rise, keeping medical and diagnostic equipment operating is more critical than ever. But before you send out a service tech, find out if the problem is power-related.

**Save Costs and Limit Your Exposure to COVID-19**

**Get a PQube3 Pass-Thru to Do the Job:**

- We'll ship it directly to the job site for you
- Just plug it into the wall outlet and connect the instrument into the PQube3 Pass-Thru
- The PQube3 Pass-Thru will immediately begin to record data about the health of the AC source
- "Call" the PQube3 Pass-Thru from your desk to
  - download data
  - revise setup
  - confirm operation & configuration
  - change reporting options
- Get automated reports delivered to a distribution list
  - daily/weekly/monthly trend reports
  - events with waveform plots as they occur
  - periodic snapshots (programmable)

Field service engineer visits, plane trips and truck-rolls to trouble sites are time-consuming and expensive. Especially if multiple trips are needed to successfully set up monitors and retrieve data. Instead, send the PQube3 Pass-Thru to the site. It will get you results that you can take action on to swiftly resolve problems.

**Rental: \$795 / Month**

**Purchase: \$7,240**

plus shipping, insurance and sales tax
